## PRINCIPAL'S REPORT

### EMERGENCY FIRE DRILL

Yesterday's fire drill ran very smoothly. Thank you for your support in assisting your children to be prepared for the drill – most particularly our Prep grade children, who by the way have also settled in very well to school routines.

### CURRICULUM DAY REPORT

Last Friday's Curriculum Day activities were a great success from our perspective. Dale Sidebottom, Founder of Energetic Education & Jugar Life drew on the value of games in learning, providing a wide array of activities that promote empowerment and learning through the playing of games. Dale left us with a valuable toolkit of games that can be used in many ways to enhance student engagement and promote both social and academic learning. Dale Sidebottom is a highly acclaimed international presenter and TED Talk presenter.

The afternoon session was devoted to furthering our knowledge and use of the award-winning writing program, *Seven Steps to Successful Writing*, that we utilize in our whole school writing approach. This was also a very valuable professional development activity.

# SCHOOL CROSSING

## MANSFIELD STREET, BERWICK

### Removal of Supervisors

The City of Casey regularly reviews its school crossing service to identify improvement opportunities to benefit Casey's growing community. While the crossings are operated by Council, the rules around how they operate are set by the *Road Safety Act (1986)* and apply to all crossings across the State.

Under the State Government's School Crossing Subsidy Program, and to meet the VicRoads standards for the management of a school crossing, more than 20 primary school children must use a crossing during both the morning and afternoon times for it to qualify as a designated crossing site.

Council assesses each crossing to track the average number of people that use it, identify those that are rarely used or where there are alternative road safety measures already in place, and consider areas where more resources need to be directed.

Consideration is given to the changing needs of the community and changed pedestrian patterns, traffic flow, speed limits and advancements in road and vehicle technology.

The following criteria must be met to qualify as a designated supervised school crossing site under the *Road Safety Act (1986)*:

- School crossings for primary school children – the number of children (minimum 20) multiplied by the number of vehicles in the hour (minimum 100) must exceed 5,000.
- School crossings for secondary school children – the number of children (minimum 20) multiplied by the number of vehicles in the hour (minimum 250) must exceed 25,000.
- Pedestrian operated signals (Including the pedestrian crossings at signalized intersections) – more than 20 primary school children per hour.
- Other crossings – where the Council determines a need for supervision on account of special needs or other factors affecting safety.

A review of the school crossing on Mansfield Street near Heard Close, Berwick, showed that it does not meet the VicRoads criteria to retain a supervisor at this location. Given the very low pedestrian numbers using this crossing, Council has made the decision to remove the crossing at this location, effective from the end of Term 1, 2023.

The School Crossings Education team, who manages the Safe Around Schools Program, has a range of educational information that can be located at <https://www.casey.vic.gov.au/safe-around-schools>.

# SAFE AROUND SCHOOLS

## Getting children to school safely is everyone's job.

### Tips for Walking to School

- ✔ Plan a safe route to school from your home.
- ✔ At every road crossing practice Stop, Look, Listen & Think before you cross the road.
- ✔ Discuss road rules in simple terms.
- ✔ Teach your children road safety and navigation skills by riding or walking around your neighbourhood.
- ✔ Find some walking buddies.
- ✔ Chat with other families about setting up buddy groups of younger and older children who can walk together.

### Safely crossing the road

To help keep your children safe around roads, teach them how to follow STOP, LOOK, LISTEN and THINK:

- ✔ STOP one step back from the kerb.
- ✔ LOOK in all directions for approaching traffic.
- ✔ LISTEN for traffic approaching from in all directions.
- ✔ THINK about whether it is safe to cross the road – when the road is clear or all traffic has stopped. When crossing, walk straight across the road. Keep LOOKING and LISTENING for traffic while crossing. Walk bikes and scooters across the road.

When choosing the best place to cross a road, teach your children they should:

- ✔ Use a pedestrian or pram crossing if there is one nearby.
- ✔ Find a place where there is a clear view of traffic coming from all directions and where drivers can see you.

## **HARMONY DAY – Monday 20th March**

On Monday 20th March we will be celebrating Harmony Day. The Junior School Council are fundraising on this day for our sponsor child, Amira. We encourage children to dress up in orange or traditional dress of their culture. A gold coin donation would be greatly appreciated to support our fundraising efforts for Amira.

## **NAPLAN – Grade 3 and Grade 5**

Naplan is well underway for our Grade 3 and Grade 5 students. Our Grade 5 students will have finished their Naplan testing today, with make up tests for students who were absent occurring tomorrow and next week. Our Grade 3 students have completed their writing tests with the remainder of their tests and make up tests for anyone who has been away occurring over the next few days. Everything has run smoothly so far and a big thank you to our Grade 3 and Grade 5 teachers for preparing the students for the tests and also to Mr Kelly for assisting with the testing sessions.

## **CURRICULUM DAY**

All staff were engaged in professional development activities on Friday last week, learning more about 7 Steps to Writing Success, which is our writing program. We were also very energised by Dale Sidebottom who worked with staff in the morning focusing on play, movement, gratitude, games and wellbeing for everyone. Dale has a strong message in his presentation about how important play, having fun and laughing are to everyone's mental health. Teachers came away from the day with a wealth of practical, hands-on activities which they will be able to incorporate into their classroom programs and every day life.

## **Screen Time Showdown: How to Manage Your Kids' Device Dependency!**

In today's digital age, screens are an integral part of our daily lives. From smartphones to tablets, laptops to TVs, screens surround us everywhere we go. As a parent, managing your child's screen time can be a daunting task. With so many options available, it can be tough to know where to draw the line.

Research has shown that excessive screen time can have adverse effects on children's physical and mental health. It can lead to sleep deprivation, poor academic performance and behavioral issues. Therefore, it's essential to set clear guidelines and limits on screen time for your child's wellbeing.

Here are some tips to help you manage your child's screen time effectively:

1. **Set clear rules and boundaries:** Talk to your child about the importance of limiting screen time and set clear rules and boundaries. Be consistent in enforcing these rules to avoid confusion.
2. **Create a daily schedule:** Establish a daily schedule that includes time for homework, chores, physical activity, and other activities, such as reading or playing board games. This schedule should include limited screen time, and you can use timers to help your child stay on track.
3. **Encourage outdoor activities:** Encourage your child to participate in outdoor activities, such as sports or walks, as it's essential for their physical and mental wellbeing.
4. **Model healthy screen habits:** As a parent, you are your child's role model. Therefore, model healthy screen habits by limiting your screen time and participating in other activities with your child.
5. **Monitor your child's online activity:** Keep an eye on your child's online activity, and use parental controls to restrict access to inappropriate content.
6. **Have open communication:** Have open communication with your child about the dangers of excessive screen time and the importance of balancing screen time with other activities.

Managing your child's screen time requires effort and consistency, but it's crucial for their well-being. By setting clear rules and boundaries, creating a daily schedule, encouraging outdoor activities, modeling healthy screen habits, monitoring your child's online activity, and having open communication, you can help your child develop healthy screen habits that will benefit them in the long run.
